

# MAC BUS

SUMMER 2023

## What is the MAC Bus

The MAC Bus is an educational opportunity for Tavelli students to participate in summer learning and fun. The program is for students who will be in grades 1-5 for the 2023-24 school year. Each day, the students will participate in Literacy, Math, Writing, Technology, and craft activities. The goal of the bus is to create a space where students can reinforce their learning and learn new fun concepts. Tavelli staff will be working with students throughout the summer, with PSD High School Student helpers as technical support. The bus will run Monday-Thursday, 9:00-11:30 at Tavelli and will not run on June 19 and July 3-6. Registration is on a first come first serve basis with a maximum of 30 students each day. Hurry, spaces are filling up!
